

BHA is accepting resumes and seeking a candidate to join our Housing Choice Voucher department as a Housing Program Specialist. This position is crucial to caseload management and the day-to-day coordination and quality control of the Housing Authority's housing assistance programs, ensuring accurate eligibility processing, managing inspections, leasing actions, and re-certifications. Additional experience in property management of assisted housing is also a bonus as our office is a small public housing agency and the Housing Program Specialist will also assist, as necessary, with our managed housing department and reception.

The desirable applicant will have prior experience in the Housing Choice Voucher program, Project based, multi-family housing programs, tax credit program or other affordable housing programs.

Please submit resume no later than July 15, 2026.
